

Bolfresh®

BTS

High sealing performance shrinkfilm

- Excellent heatsealing characteristics
- Secure package at low temperatures
- Good optics
- Stiffness improving machinability at very high speed

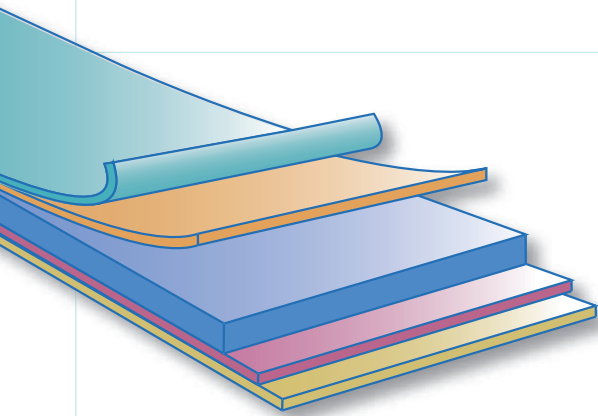

APPLICATIONS

Bolfresh® BTS belongs to the range of specialized films dedicated to high speed HFFS machines.

Excellent sealing characteristics, superior optics and resistance at low temperatures make **Bolfresh® BTS** performant in the packaging of frozen food products such as pizzas.

Pack & Protect

SEALING PERFORMANCE

The unique combination of rigid layers at the core and sealable external layers means high performance in sealing at high speed.

TECHNICAL FEATURES

	14 microns
Gloss (%)	115
Haze (%)	2
Shrinkage (%) at 120°C	30
Roll length (m)	3 330
Internal diameter (mm)	76,2
External diameter (mm)	280

To the Bolfresh® outstanding performance can be added **Bolloré's secured manufacturing and quality standards:**

FOOD CONTACT COMPLIANCE

This Bolloré film complies with the applicable EC and USA regulations. Full details (with the conditions of use) are given on the Declaration of Compliance for food contact (this document is available on request).

CERTIFICATIONS

Bolloré facility manufactures the packaging films according to the food safety standard BRC/IOP (British Retail Consortium, Institute of Packaging), as well as ISO 22000.

TRACEABILITY

Bolloré ensures the traceability of the materials and items manufactured at all production stages, including raw material, production and shipment.

PRÉSENTATION

Bolfresh® BTS is available in Singlewound version: BTS-S.
