

# Bolphane® **BRN**

Soft shrink polyolefin film

- **Soft shrink**
- **Excellent machinability on high speed equipment**
- **Superior gloss**
- **High clarity level**

## APPLICATIONS

➔ Bolphane® BRN film benefits from an exclusive formulation especially designed for soft and flexible items usually met in the stationery, textile and paper products.

➔ On high speed processing conditions, BRN reveals itself in terms of high output performances and unmatched clarity level.

# Bolphane® BRN

## SHRINK PROFILE

- Compared to a typical shrink film, Bolphane® BRN keeps shrink forces under control within a large range of temperatures.

## TECHNICAL FEATURES

PROPERTIES	15 MICRONS	
Gloss at 20°	115	
Haze (%)	3	
Shrinkage (%)	at 93°C	30
	at 120°C	60
Roll length (m)	Singlewound BRN-S	2 670
	Centerfolded BRN-C	1 335
Inner core diameter (mm)	76,2	
Outer roll diameter (mm)	245	

## PRESENTATION

- Bolphane® BRN exists in Singlewound (BRN-S) or in Centerfolded (BRN-C).

The technical features of the products defined herein are given as typical values. They are guides for the use of the quoted films values and are not for use as limiting specification. Users have to check-up that they are suitable with all the applications as performance may vary with processing conditions. Properties and performance are subject to change and BOLLORE keeps the right to modify the definition and properties of its products without prior notice.
