

BOLFRESH

SHRINK FILMS
FOR
POULTRY PRODUCTS

Bolloré Packaging offers a complete range of shrink films, **Bolfresh®**, for product **protection** and **added value on shelves** for different type of **poultry**:

Fresh & frozen products
Whole chicken, chicken parts...

Chicken, turkey, duck, guinea fowl, quail...
Elaborated, marinated, with skin, skinless, breaded...

Product enhancement
(Quality optics, anti-fog, transparency, high shrinkage level)

Barrier films
(for modified atmosphere packing)

Meets the packaging requirements in retail units for industry and catering

Protect the product and prevent from contamination risks

BOLFRESH

Reinforced sealing properties and high puncture resistance

High speed overwrapping

Meeting the needs of extended shelf life for consumers and meat processors

Barrier films

To prolong the shelf life of your products, Bolloré offers its range of barrier films

OXBTEC[®]
& **LIDTEC[®]**

Formulated with barrier and antifog properties, they are ideally suited for packing under modified atmosphere

OXBTEC[®]

LIDTEC[®]

OXBTEC®

OXBTEC		Standard
	-R	Recyclable
	-RCB	Recyclable Circular Based

For flowpack type machines

Allows the complete over-wrapping of the product with or without container

Leakproof

Resistance of the sealing and resistance to tear

LIDTEC®

LIDTEC SOFT	200	Standard
	100	Less shrink
	300	More shrink

Lidding films with extended working range

Result without crease
“Tight as drum” effect

For tray with
PE sealing

Fresh - short shelflife

BOLFRESH® BSF Stretch-shrink films

Heat-sealed stretch film to avoid liquid leakage and contamination risks

Shrinking without crease
Tight around the product

High impact resistance
Anti-fog properties
(or Bolfresh® **BCF** option: without anti-fog properties)

BOLFRESH® BFF Anti-fog polyolefin film

Ideal for the enhancement of products subjected to **large temperature variations**

High performance anti-fog properties

Available in **-Ri** version based on post-industrial recycled material

Fresh - short shelflife

LIDTEC® LB 500 Breathable Lidding Shrink Film
For tray with PE sealant

High permeability to oxygen
Anti-fog properties

High shrink level and elasticity
Suited for trays containing protruding products

Frozen food ❄️

BOLFRESH® BSP

Film suitable for flowpack packaging
Enhanced sealing properties

High shrinkage properties
“second skin” film suitable for irregular shapes

Outstanding resistance to low temperatures
Avoid a so-called “freezer burn”

Printed films

solutions

Bolloré packaging films offer customized printing solutions for your films

High-definition **flexographic** printing

More than **10 colors**

Continuous or discontinuous printing

Suitable for most types of machines:
flowpack, L-sealers, traylidding...

To the **Bolfresh**® outstanding performance can be added **Bolloré's**
secured manufacturing and **quality** standards

CERTIFICATIONS

Bolloré films manufacturing site is certified **BRC** (British Retail Consortium).

TRACEABILITY

In compliance with regulation 1935/2004/CE, Bolloré ensures the traceability of materials and articles at all stages, from production to shipment.

FOOD CONTACT APPLIANCE

Bolloré films are allowed for food contact; they are made with ingredients complying with European regulations.

For your **printed film**
projects
